● PROFILE

Computer Science and Engineering student focused on web development and full-stack application development. Hands-on experience with responsive interfaces, JavaScript, Node.js and real-time web applications. Strong in debugging, problem solving and AI-assisted development, with practical projects covering e-commerce, real-time chat and live bidding systems.

● TECHNICAL SKILLS

Languages: JavaScript, Java, C, basic Python

Web / Frameworks: HTML5, CSS3, Node.js, Express.js, React.js (coursework), Socket.io

Tools / Platforms: GitHub, Git, VS Code, AutoCAD, CodeTantra

Development: Debugging & troubleshooting, responsive UI development, real-time communication, AI-assisted coding

● PROJECTS

AuctionCore — Live Auction System |

github.com/aakashchandra17/Live-Auction-System

- Built a full-stack real-time bidding application using HTML5, CSS3, JavaScript, Node.js, Express.js and Socket.io.
- Implemented real-time bid and activity synchronization across clients, authentication overlays, client-side validation and a responsive dashboard.
- Applied a server-centered Observer-pattern approach to synchronize auction state across distributed clients.

Basic ChatBot AI | github.com/aakashchandra17/Basic-ChatBot-AI

- Developed a WebSocket-based real-time communication application with automated responses and persistent storage.
- Structured the project with Node.js package configuration and backend logic for interactive messaging and data persistence.

Just Click — E-Commerce Front-End

October 2024

- Developed a responsive e-commerce front-end using HTML, CSS and JavaScript, featuring user-friendly navigation and product displays.
- Focused on a clean interface and practical use of modern web technologies for a seamless browsing experience.

Real-Time Allocation Tracker |

github.com/aakashchandra17/Real-Time-Allocation-Tracker

- Designed a system to monitor resource allocation with a responsive interface and interactive components.
- Built project logic using Java and JavaScript and focused on data accuracy and streamlined workflows.

Personal Portfolio Website |

github.com/aakashchandra17/portfolio

- Developed a responsive personal portfolio website to showcase technical skills, projects, certifications, activities, education, and contact information.
- Designed a modern, interactive interface to present full-stack and web development work, including real-time systems and AI-assisted development interests.

● EDUCATION

B.Tech — Computer Science and Engineering | Lovely

Since Aug 2024

Professional University

Punjab, India

Intermediate | Narayana Junior College, Vizag, Andhra

March 2024

Pradesh

Percentage: 92.3%

SSC | Narayana School, Gajuwaka, Andhra Pradesh

March 2022

Percentage: 89.5%

● CERTIFICATIONS

AI Tools & ChatGPT Workshop — Be10x

December 2025

15+ Hours MOOC on React.js — Tech Veda

March 2025

Cyber Security & Ethical Hacking — Secuneus

September 2024

Effective Time Management with Proctored Exam —

October 2024

CodeTantra

C Programming — 72 Hours

Live C Programming Course — 18 Hours

MOOCs — 3 Courses Completed
